1. This application is in condition for allowance except for the following formal matters:

(1) The amendment filed on 11/24/2004 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention.

The added material which is not supported by the original disclosure is as follows:

A) This is in regard to the amended written description of the paragraph beginning on page 5, line 13 and the amended written description beginning on page 32, line 29. In this regard, there is no figure 11 (amendment to page 5, line 13 paragraph) and the subject matter added at page 32, line 29 is unsupported by the application as originally filed.

B) This is in regard to newly added figure 12. The subject matter of this figure is unsupported by the application as originally filed.

Note that just because something is well known in the art does not qualify it to be added to the written specification. Absent some teaching or motivation, one of ordinary skill would have no motivation to select the particular subject matter known in the art and apply in the particular way it is now being applied to applicant's disclosure.

Applicant is required to cancel the new matter in the reply to this Office Action.

(2) The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the closed gas system; bolt; and weapon (see claim 35) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing

Art Unit: 3641

sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

2. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

3. Claims 35-36 and 38 are allowed.
